

ABOUT

Self-motivated team player, ambitious and creative problem solver are three attributes that identify me. For the past years, I have co-developed VASS Productions' digital department and helped tripled the turnover in 1.5 year. I have invented, developed and lead successful advertising campaigns across the Nordics (March 2017-August 2018). I am currently studying Design Lead (August 2018-June 2019) at Hyper Island to sharpen my skills within service design and leadership.
